

## **Equivalence Determination Certification**

We are excited to share that Bantwana Initiative Uganda has successfully received the Equivalency Determination (ED) Certificate, a significant achievement for our organization. This certification comes after a thorough analysis by NGOsource, and we are pleased to announce that we have been recognized as equivalent to a Certified Public Charity. This distinction affirms our commitment to high standards of transparency and accountability in our operations.

The ED certificate is now available in the NGOsource repository and can be accessed by member grantmakers. This certification is valid through September 30, 2025, further strengthening our position in the global nonprofit sector and enhancing our ability to attract support for our mission.

We are deeply honored by this recognition, as it underscores our ongoing dedication to making a meaningful impact in the communities we serve. This milestone will help us expand our reach and secure additional resources to continue our work in development, advocacy, and support for vulnerable populations. We look forward to the continued opportunities this certification will bring in advancing our mission.
